ACEITES DE SEMILLAS, S.A.

Aceites de Semillas, S.A. is an old hand supplier with years of experience in the process of continuous full press of edible oil seeds to obtain organic vegetable oils and oil seed expeller cakes for organic animal feeding.

Mainly we process soybeans and sunflower in our site and also we trade in grains and cereals for animal feeding.

The company with 100% Spanish capital was established in 1949 in Caldes de Montbui (Barcelona) in Catalonia / Spain. The main site is located in the Region of Vallès Oriental, 35 Km from the Barcelona port and 10 Km far from the A7 high way to France which lend us very much flexibility for our logistics both our raw material supply and our finished product sales to the national and export market.

The site of the Company comprises the processing plant and different warehouses for the solid cargo and tanks for edible oils. Aceites de Semillas, S.A. also owns a fleet of ISO tank containers for the food grade industry, which all owns to operate in intermodal traffic, and “door to door” conditions for the Southern Europe and the Mediterranean import and export markets.

ALIMENTOS PARA EL SIGLO XXI, S.L. was born with the aim of developing food and beverages with a healthy side. We want to contribute to a healthier diet and a more sustainable society.

Beauty, our first project, is a craft and organic beer made with aloe vera (10%). It’s a unique product since we have a first quality organic beer and a healthy drink at the same time, due to healthy properties of aloe vera.

Cal Valls is a family company located in Vilanova de Bellpuig, a small village in the province of Lleida (Catalonia), which has spent more than thirty years dedicated firstly to organic production and then to biodynamic agriculture. Certified by the CCPAE (Catalan Council of Ecological Agricultural Production) and Demeter International, our primary goal is to protect the health both of our consumers and the environment. That is why, from the fields to the final result, we lavish our products with care to ensure they are healthy and natural. We currently produce and market fresh fruit and vegetables, fruit juices, tomato preserves and sauces, cooked pulses, marmalades, quince jelly, olives and jars of peppers, asparagus and other vegetables, both organic and Demeter. We make most of our products during the harvest season, when the fruit and vegetables are at their freshest, before packaging and storing them. All our juices and preserves are packaged in glass bottles and jars.

**CERTIFICATIONS:** CCPAE and Demeter Internacional.

STAND 5-231/10
Eco Aliment was created in 1980 in Mataró (Barcelona) with a basic product line consisting of the company’s two most characteristic products: honey-coated rice cakes and baby food. The philosophy behind our products is that of providing healthy nutrition which is in harmony with society and the environment. That is why all our raw materials are non-animal products grown using organic methods, which we process using natural techniques for optimum quality, thus avoiding the need for additives and making our products ideal for vegetarians, vegans and celiacs, as well as anyone who follows an organic diet.

COD BALLS
Pre-cooked product made from cod
Germans Cumbriu is a family company that has worked with cod since 1943 and turned working with cod into a veritable art form. This explains why we are popularly know as “The Home of Cod”.

Our main objective is to be always able to offer the maximum quality and the largest possible variety of cod products. We do this through a careful selection of Icelandic cod, which is caught using traditional fishing skills that guarantee the maximum respect for the product. The cod is caught at the most appropriate time of year, when is is best fed and therefore at its largest, and it is then salted when the climatic conditions are most favourable for this. We also offer a personalised complementary service for the preparation of all sorts of salted, desalted and precooked cod products.

WOK OF TOFU AND VEGETABLES
Chinese and Mediterranean cuisine are fused together to create a delicious dish.
Tofu*(30%) (soya, water, gelling agent: nigari), onion*(25%), water, carrot*(12%), green bean* (8%), shoyu* (water, soya, wheat, sea salt and koji), apple concentrate*, pumpkin seeds*, extra virgin olive oil*, sea salt. (*from organic farming)

WOK OF SEITAN AND VEGETABLES
Mediterranean cuisine are fused together to create a delicious dish with seitan protein.
Seitan*(33%) wheat flour, gluten, shoyu (soya, wheat, sea salt and koji), Kombu, garlic and ginger), onion*(42%), leek*(11%), carrot* (6%), green bean *(6%), shiitake* (3%), extra virgin olive oil* and sea salt. (*from organic farming)

SEITAN
Wheat flour*, gluten*, shoyu* (water, soya, wheat, sea salt and koji), Kombu, tamari*, ginger* and garlic*. (*from organic farming)

TOFU
Soya* (63%), water and gelling agent: nigari. (*from organic farming)
Since 1986 Vegetalia has been completely committed to the project of natural and organic food. Our goal is clear and ambitious: to constantly look for the balance between traditional craftsmanship and the use of the latest technology to ensure the highest quality.

We have found that Mas Montserrat is the ideal landscape to carry out such an endeavour. Mas Montserrat offers 70 hectares of farm land, 50 hectares of forest area, 1.000m² of processing facilities, and a warehouse of 1.800m² full of products ready for being distributed, 350m² of office space and a big stone country house. All together shapes a unique site close to Castellcir, a town in the charming hills of Moianès Region.

From the very beginning, we have been working and living according to our beliefs, and we have endeavor to promote and share our common ideals. In Vegetalia, we are convinced of quality nutrition is one of the main factors for preserve a good health, because the old saying: “we are what we eat”, is true. That’s the reason why our work involves promoting and informing about organic products, which are tastier, healthier and more nutritious. From our experience, we can safely state that food is what keeps us alive, but good natural food is what gives us quality of live.
