

## WHO WE ARE

### Prodeca

Prodeca is a state-owned company under the Ministry of Agriculture, Livestock, Fisheries and Food of the Government of Catalonia. Prodeca provides support services in internationalisation and foreign trade to the agri-food sector in Catalonia.

### Meat Industry

The meat industry is the main agri-food sector in Catalonia, with turnover of €10 Bn. It represents 35% of turnover in the agri-food sector, 36% in employment and 16% in number of companies.

### Export

Catalonia is a large exporter of meat. Catalonia exports 43% in volume and value of the total meat exported by Spain and 6% in volume and value of the European Union.

These data support the enormous professionalization of the sector which has managed to achieve very high standards of welfare, animal health, production quality and efficiency, which are praised all over the world.

Where food is culture

## OVINE & BOVINE

### Bovine meat

Spain produces 530.000 tones of bovine meat, meanwhile in Catalonia region is produced 133.000 tones of bovine, representing almost the 25% compared with Spain.

### Ovine meat

Spain produces 92.000 tones of ovine meat, meanwhile Catalonia produces 12.000 tones of meat. Representing 13% of the production compared in Spain.

### Meat referents

Catalonia, renowned for its agri-food leadership, excels in high-quality bovine and ovine production, combining tradition and innovation to be an international benchmark in the meat industry.

## CATALAN QUALITY

### Quality is priority

The food model of Catalonia is based on defending the safety, diversity, and quality characteristics of products, aimed at promoting better commercial exchanges. It is founded on differentiating the quality and origin of these products, protecting and promoting traditional products, fostering quality certification, and strengthening the mechanisms, control, and inspection of agri-food quality.

### Meat Halal For Muslim Countries

In Spain, halal slaughter is permitted, and in Catalonia, a significant number of meat companies are certified for halal processing. These companies are well-prepared to meet the dietary requirements of Muslim-majority countries and are currently exporting certified halal products to markets such as Saudi Arabia, the UAE, Qatar, and more.
